HPSV / MH Lamp Flood Light Fittings with highly polished stainless steel faceted reflectors

**70 Watt
(Integral)
Type No. 21708**

**250/ 400 Watt
(Non Integral)
Type No. 20133**

**2 x 250/ 2 x 400 Watt/ 1 x 1000 Watt
(Non Integral)
Type No. 20140**

**150/250 Watt (Integral)
Type No. 20176**

**250/ 400 Watt (Integral)
Type No. 20135**

Tough by Nature, Innovative by Design

70 watt Flood Light with integral control gear : High intensity, weather & dust proof Flood light with highly polished stainless steel mirror reflector-cum-body, toughened front glass fitted to cast aluminum retaining ring by captive bolts screwed down to the flange of the body, G.S.lamp holder with lamp locking arrangement and M.S.Cradle with passivated bolts and incorporated control gear. The light fitting would be complete with **230V, 70 W HPSV / MH Lamp. Sigma Type No. 21708**

400 watt / 250 watt Flood Light - High intensity, weather & dust proof Flood light with highly polished stainless steel mirror reflector-cum-body, toughened front glass fitted to cast aluminum retaining ring by captive bolts screwed down to the flange of the body, G.S. lamp holder with lamp locking arrangement and M.S.Cradle with passivated bolts The light fitting would be complete with **230V, 400W / 250W HPSV / MH Lamp** & its control gear in cast aluminum housing. **Sigma Type No. 20133**

1 x 1000W / 2 x 400 watt / 2 x 250 watt Flood Light - High intensity, weather & dust proof Flood light with highly polished stainless steel faceted mirror reflector-cum-body, toughened front glass fitted to cast aluminum retaining ring by special headed captive bolts screwed down to the flange of the body, G.S. lamp holder with lamp locking arrangement and M.S. Cradle with passivated bolts The light fitting would be complete with **230V, 1 x 1000W / 2 x 400W / 2 x 250 W HPSV / MH Lamp** & its control gears in cast aluminum housing. **Sigma Type No. 20140**

250 W / 150 watt Flood Light with integral control gear : High intensity, weather & dust proof Flood light with highly polished stainless steel faceted mirror reflector-cum-body, toughened front glass fitted to cast aluminum retaining ring by captive bolts screwed down to the flange of the body, G.S. lamp holder with lamp locking arrangement and M.S. Cradle with passivated bolts and incorporated control gear. The light fitting would be complete with **230V, 250W / 150 W HPSV / MH Lamp. Sigma Type No. 20176**

400 watt / 250 watt Flood Light with integral control gear : High intensity, weather & dust proof Flood light with highly polished stainless steel faceted mirror reflector, cast aluminum housing for reflector and control gear, toughened front glass fitted to cast aluminum retaining ring by captive bolts screwed down to the flange of the aluminum body (with incorporated steel inserts at threaded portions), G.S. lamp holder with lamp locking arrangement and M.S. Cradle with passivated bolts and incorporated control gear . The light fitting would be complete with **230V, 400W / 250W HPSV / MH Lamp. Sigma Type No. 20135**
