Street Lights

**70/150 Watt
HPSV/MH**

Type No.
70 Watt-21901
150 Watt-21921

**250 Watt
HPSV/MH**

Type No. 21941

**70/150 Watt
HPSV/MH**

Type No.
70 Watt-21902
150 Watt-21922

**250 Watt
HPSV/MH**

Type No. 21942

2X18 watt CFL

Type No. 20926

2X36/2X85 Watt CFL

Type No. 20437

An ISO 9001 Company

SIGMA

Tough by Nature, Innovative by Design

70 watt / 150 watt / 250 watt Street Light - High intensity, weather, dust & vermin proof Street light having broad spread complete with cast aluminum body incorporated control gear, highly polished stainless steel mirror reflector, lamp holders, toughened glass cover with neoprene rubber gasket held in position with help of cast aluminum hinged retaining ring with pilfer proof and captive bolting system. The control gear would consist of ballast, ignitor, capacitor and connectors duly wired. The street light would be complete with **230 V 70 watt / 150 watt / 250 watt HPSV / Metal halide lamp**. **Sigma Type No. 21901 / 21921 / 21941**

70 watt Street Light - High intensity, weather, dust & vermin proof Street light having broad spread complete with highly polished stainless steel mirror reflector-cum-body, incorporated control gear, lamp holders, toughened glass cover with neoprene rubber gasket held in position with help of cast aluminum retaining ring. The control gear would consist of ballast, ignitor, capacitor and connectors duly wired. The street light would be complete with **230 V 70 watt HPSV / Metal halide lamp**. **Sigma Type No. 21903**

150 watt / 250 watt Street Light - High intensity, weather, dust and vermin proof Street light complete with highly polished stainless steel reflector-cum-body, incorporated control gear in cast aluminum housing, lamp holders, toughened glass cover with neoprene rubber gasket held in position with help of cast aluminum retaining ring with pilfer proof and captive bolting system. The control gear would consist of ballast, ignitor, capacitor and connectors duly wired. The street light would be complete with **230 V 150 watt / 250 watt HPSV / Metal halide lamp**. **Sigma Type No. 21942**

2 x 18 watt Street Light - Weather, dust and vermin proof Street light complete with highly polished stainless steel reflector-cum-body, electronic ballast, lamp holders, toughened glass cover with neoprene rubber gasket held in position with help of cast aluminum retaining ring. The street light would be complete with **2 nos of 18 watt CF Lamps**. **Sigma Type No. 20926**.

2 x 55 watt / 2 x 36 watt Street Light - Weather, dust and vermin proof Street light complete with highly polished stainless steel reflector-cum-body, electronic ballast, lamp holders, toughened glass cover with neoprene rubber gasket held in position with help of cast aluminum retaining ring. The street light would be complete with **2 nos of 55 watt CF Lamps / 2 nos of 36 watt CF Lamps**. **Sigma Type No. 20437**
